

TriVoKo

Multi-seller E-commerce Marketplace

Sketches & Sample Data

The 6 key pages sketched before coding, and the plan for the 120 sample products, 8 sellers and their photos

1. Sketches of the 6 key pages

These are **low-detail sketches**: they fix the layout, the content of each page and the rules behind it - not the final pixels. Striped boxes are product photos. Yellow notes explain the rule behind a part of the page and the phase that builds it.

Real-life example: An architect shows the family a simple drawing of each room before building: where the door is, where the kitchen goes. Moving a wall on paper costs nothing; moving it after the bricks are laid costs a lot. These sketches are that paper.

Design rules used on every page:

- **Teal (brand)** for trust: buttons, links, the logo. **Saffron (accent)** only for deals and the flash sale, so the eye goes there.
- White cards with soft borders on a light grey page; the same cards in dark grey in dark mode.
- Prices: big selling price, crossed-out MRP, green "% off". Money in Indian format (₹2,499; ₹48,210).
- Every page also has a phone layout and a dark mode (checked in Phase 3).

1.1 Home

Home: categories, flash-sale banner with countdown, deals, new arrivals

1.2 Search / listing

Search: typo fixed, filters with counts, chips for active filters, sort, pages

1.3 Product page

Product: gallery, variant picker (colour, size), price with MRP and lowest price in 30 days, seller box

1.4 Cart

The screenshot shows the TriVoKo cart interface. At the top, there's a search bar and a user greeting "Hi, Ravi". The main heading is "Your cart (3 items)" with a sub-note "This order comes in 2 packages - one from each seller." Below this, two packages are listed:

- Package 1 - Chennai Mobiles** (Free delivery): Silicone case for iPhone 15, Black, Qty [- 2 +] · Remove. Price: ₹998.
- Package 2 - Kovai Sports** (Free delivery): Kovai Run Pro running shoes, Blue · UK 8, Qty [- 1 +]. Price: ₹2,499.

On the right, the "Price details" section shows: Items (3) ₹3,497, Delivery FREE, Total ₹3,497. A "Checkout" button is present. A note at the bottom right states: "A guest cart lives in the browser and is MERGED after login (Phase 3)".

Grouped by seller = the split is visible before paying

Cart grouped by seller: the customer sees "2 packages" before paying

1.5 Checkout

The screenshot shows the TriVoKo checkout interface. At the top, there's a "Secure checkout" badge. The progress bar shows three steps: 1 Address, 2 Review, 3 Pay. The main content is divided into two columns:

- Left Column:**
 - Deliver to:** Ravi Kumar · 12 Anna Salai, Chennai 600002 · 98xxxxxx10 (Default). Office - Guindy, Chennai. + Add a new address.
 - Review packages:**
 - Chennai Mobiles · Silicone case × 2 · ₹998
 - Kovai Sports · Kovai Run Pro × 1 · ₹2,499
 - Warning:** Price changed: Silicone case is now ₹499 (was ₹549)
- Right Column:**
 - Coupon:** WELCOME10 (Apply). 10% off applied.
 - Price breakdown:** Items ₹3,497, Coupon - ₹350, Delivery FREE, Pay ₹3,147.
 - Payment:** Pay with Stripe button.
 - Note:** Stock is held for 10 minutes while you pay.
 - Payment Summary:** One payment → order TV-1001 → 2 packages (Phase 4)

Server recalculates every price, coupon share and delivery fee (never trusts the browser)

Checkout: address, packages review, price-changed warning, coupon, one Stripe payment

1.6 Seller dashboard

Seller - Kovai Sports

- Dashboard
- Orders to ship

Packages to ship

Package	Items	Placed	Status	
TV-1001-2	Kovai Run Pro × 1	10:42	PLACED	Mark packed
TV-0998-1	Yoga mat × 2	09:15	PACKED	Ship + tracking no.
TV-0990-3	Cricket bat × 1	Yesterday	SHIPPED	AWB 1234...

Seller sees ONLY their own packages (Phase 2 ownership checks)

Balance = sum of ledger lines (+90% on delivery, - on refund)

Seller dashboard: today's numbers and the packages this seller must ship

Note: The sketches are made from `docs/sketches/sketches.html` (render with `tools/sketches/render.ps1`), so a change is quick: edit the HTML and render again.

2. Sample-data plan

The shop must look real on day one of the demo: enough products to make search, filters and paging meaningful, and sellers whose names tell the demo story. The data is loaded by a **Flyway migration in Phase 1** (V2 seed), so every computer and the live server get exactly the same shop.

Real-life example: A new supermarket does not open with empty shelves. Before the first customer walks in, the staff fill every aisle with a few of each item, so the shop looks and works like a real shop.

2.1 Numbers

What	How many	Why this number
Top categories	10	One row of category chips on the home page
Sub-categories	2-3 per category (25)	The category filter has something to filter
Sellers (approved)	8	Enough for "top sellers" reports and the shop pages
Sellers (pending, for the approval demo)	1	The admin has something to approve in Phase 6
Products	120 (12 per category)	5 pages of 24 = real paging; facets with useful counts
Variants	about 300	Sizes for fashion and shoes, colours / storage for phones
Photos	1-4 per product (about 250)	Gallery on the product page

2.2 The 10 categories

Category	Sub-categories	Variants by
Mobiles & Accessories	Mobiles, Cases & covers, Chargers & cables	Colour, storage
Laptops & Computers	Laptops, Keyboards & mice, Storage	RAM / storage
Audio & Wearables	Headphones, Speakers, Smartwatches	Colour
Men's Fashion	Shirts, T-shirts, Kurtas	Size S-XXL, colour
Women's Fashion	Sarees, Kurtis, Tops	Size, colour
Footwear	Running shoes, Sandals, Formal shoes	UK size 5-11
Sports & Fitness	Cricket, Yoga & gym, Cycling	Size / weight
Home & Kitchen	Cookware, Storage, Decor	Capacity
Books	Fiction, Programming, Tamil books	Paperback / hardcover
Kids & Toys	Toys, Kids wear, School	Age / size

2.3 The 8 sellers (+1 pending)

Shop	City	Sells	Demo role
Chennai Mobiles	Chennai	Mobiles & accessories	Package 1 of order TV-1001 (iPhone 15 case)
Kovai Sports	Coimbatore	Sports, footwear	Package 2 of TV-1001 (shoes); the return + partial refund
Bengaluru Gadget Hub	Bengaluru	Laptops, audio, wearables	Offers the flash-sale headphones (100 at ₹999)
Madurai Handlooms	Madurai	Women's fashion, sarees	Size variants, price-drop alert for Kavya
Mumbai Style Co	Mumbai	Men's fashion	Size + colour variants
Salem Steel Home	Salem	Home & kitchen	Low-stock warning example
Pondy Books	Puducherry	Books	Simple products without sizes
Tirupur Kids Wear	Tirupur	Kids & toys	Age-size variants
Erode Organics (PENDING)	Erode	Grocery-style home items	Waits for admin approval in the demo

Note: Shop names are made up for the demo. **Brands are made up too** (for example *Kovai Run*, *Volta*, *Arc*), so no real company's products or prices are copied. Product names may say what they fit ("case for iPhone 15"), as real accessory shops do.

2.4 Prices and stock

- Prices in rupees with realistic ranges: ₹199 (cable) to ₹74,999 (laptop). MRP 10-50% above the selling price, so "% off" looks real.
- Stock between 0 and 60 per variant. On purpose: some variants **sold out** (crossed-out size), some **below 5** (low-stock warning), most comfortable.
- A few products get 3-4 old prices in **price_history**, so "lowest price in 30 days" and price-drop alerts have data from the start.
- Every seed product is **ACTIVE** except 3 **PENDING** products (product-approval demo) and 1 **REJECTED** with a reason.

2.5 Where the product photos come from

Option	Good	Bad
A. Free stock photos (Pexels / Unsplash licence) → Cloudinary (chosen)	Real photos look professional in the portfolio; free licence allows use without payment; Cloudinary resizes them	About 250 photos to pick; must keep a credits file
B. Generated simple illustrations (SVG per category)	No licence questions; tiny files	Looks like a toy shop, weak in a portfolio
C. Grey placeholders	Zero work	Looks unfinished

Plan: in Phase 1, pick photos from Pexels / Unsplash (free licence), upload them **once** to the TriVoKo Cloudinary account with a script, and keep `docs/photo-credits.csv` (product, photo page URL, photographer). The seed migration stores only the Cloudinary URLs. Until the Cloudinary account exists, products show a neutral placeholder.

2.6 Demo accounts (created in Phase 2)

Account	Role	Used for
admin@trivoko.test	ADMIN	Approvals, flash sale, reports
ravi@trivoko.test	CUSTOMER	The main demo story (buys from 2 sellers, returns shoes)
kavya@trivoko.test	CUSTOMER	Wishlist + price-drop alert
chennai@trivoko.test, kovai@trivoko.test ...	SELLER	One login per demo seller

The password comes from `.env` (`DEMO_PASSWORD`), never from the code - the EventHub rule.
